

BidScreen XL™ Measures Up

by adding quantity takeoff on-screen directly to Excel.

BidScreen XL quickly and easily measures areas, lengths and counts from the native drawing file while working in any Excel workbook. An outstanding audit trail is automatic as the value and its color coded drawings are written and saved to the Excel cell.

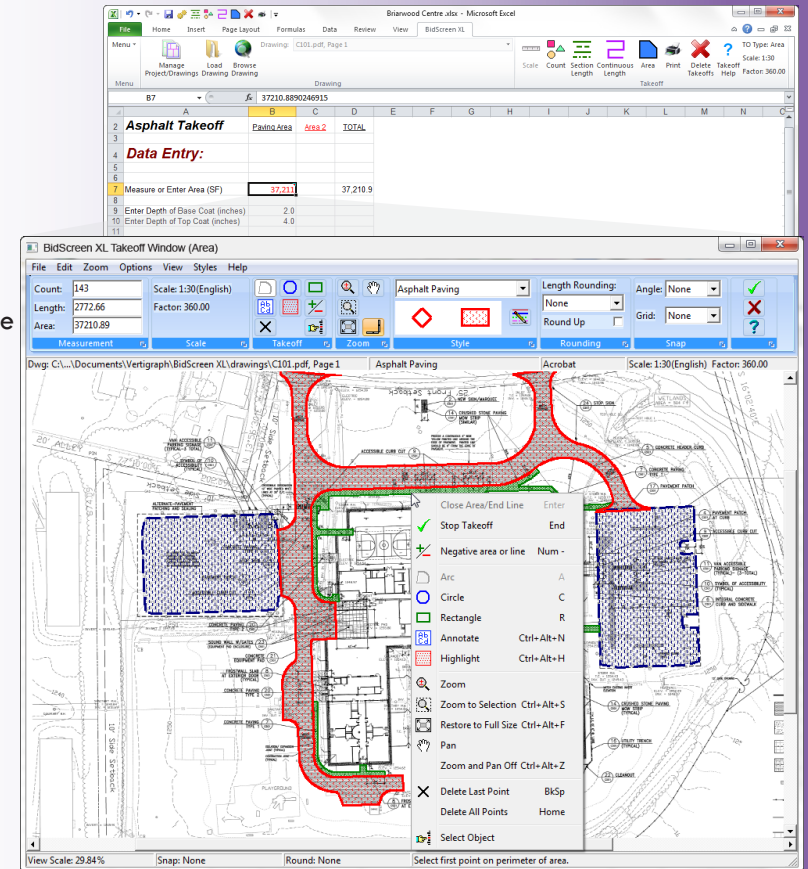

With BidScreen XL you'll measure on-screen and routinely calculate the takeoff and estimate using Excel formulas, functions and templates. A collection of powerful, time saving Excel templates are included or simply use your existing Excel workbooks. BidScreen XL works with all of the leading file formats including PDF, Vector PDF, DWG, DXF, JPG, TIFF and others.

Benefits

- Gain speed and confidence.
- Obtain immediate benefit by its ease of use.
- Operate flawlessly with both 32 and 64 bit Excel.
- Cut printing, paper and manpower costs.
- Manage files through any Cloud drive.
- Improve profits by implementing this affordable system.

Features

- Clearly display and organize drawings with new Drawing Manager.
- Measure accurately when horizontal and vertical scales are different.
- Takeoff efficiently with hot keys for circles, rectangles and arcs.
- Annotate, highlight and describe the drawing file.
- Snap lines to a grid or angle and round lengths as needed.
- Isolate design layers and snap to the object with a single click when working with AutoCad DWG and other vector files.
- Create and change line colors, line styles, area fill patterns, custom count symbols and line widths.
- Works with the original file; no need to convert or modify files.
- Receive unlimited support, training and product upgrades through our Full_Serve program.

Since 1991 thousands of contractors have successfully employed Vertigraph's takeoff and estimating solutions.

Our mission is to greatly exceed expectations and to provide superior software that adds substantial operational, financial and strategic value. Our products are created with craftsmanship that are easy to use and feature rich. We offer the best value proposition in the industry with an unmatched return on investment. Satisfaction is guaranteed.
